The Clinical Companion: Flow of Care

Belief Counseling · Counselors' Room

Foundations 1: The Basics
What Is a Belief? · Belief Counseling · Belief Mining · Videos

↓

Foundations 2: Counselor Reading
History, ethics, personality, and more

↓

1. Telephone Intake
First contact with the client
- Ask: online or paper forms?

↓

2. Online (or Paper) Intake
About You and Brief History (consent forms to come)

↓

3. Schedule First Visit
Set the first appointment

↓

4. Assessment Report Begins
AI starts the report from the intake information

↓

5. Review Intake Information
Before the first interview
- Initial hypothesis about diagnosis
- Initial hypothesis about toxic beliefs

↓

6. Initial Interview
Belief mining begins
- Functional analysis of presenting problem (counselor-led)
- Consider safety issues
- Review Mining levels form and Adult History

↓

7. Develop Hypotheses
Diagnosis and possible false beliefs

↓

8. Counselor Enters First Case Note
AI adds the Interview Findings
- Functional analysis findings dictated into the note
- AI suggests DSM-5-TR and belief questions for next session
- Steps 6-8 repeat after each session

↓

9. Follow-up Tests or Assessments
Level checklists, diagnostic forms
- Check off forms on the "Forms to Complete" card
- Short screens: PHQ-9 (depression), GAD-7 (anxiety)
- Optional spiritual screens (if faith is included):
  - RSS-5, routinely (about 2 minutes)
  - Brief RCOPE, when a specific stressor is central
  - SAI, for in-depth work (author permission needed)
  - Christian Experiences and Beliefs (counselor-guided)

↓

10. Diagnosis + Identify
DSM-5-TR and false beliefs
- Guide: the DSM-5 diagnostic process

↓

11. Treatment Plan
Built from the diagnosis and false beliefs

↓

12. Challenge
Secular and Christian techniques

↓

13. Replace
False beliefs replaced with the truth

↓

14. Belief Cards
Public belief cards used as homework
