Name: _____ Date: _____

Instructions: Use the key below to rate any negative and judgmental thoughts that occur in your thinking. Rate only the ones that apply to you. Leave them blank if they do not apply. Then go back and underline any thoughts that seem particularly strong in your mind.

Motivator: This exercise is extremely important! You must identify depressive thoughts before you can attack them! Do not be surprised if you end up rating many of these items. Most depressed people engage in a great amount of negative thinking!
